

# Information Security Policy

We are fully committed to protecting the **confidentiality, integrity** and **availability** of information and information systems across our organization. Information security is essential to the reliable delivery of our services and to maintaining the trust of our customers, employees, business partners and stakeholders.

To achieve this commitment, information security is embedded in our business processes and supports the safe, secure and resilient operation of our activities.

Key points of our information security strategy:

- **Protect information** against unauthorized access, disclosure, alteration, loss or destruction.
- Identify, assess and manage information security **risks** through a structured and risk-based approach.
- **Comply** with applicable legal, regulatory, contractual and information security requirements.
- Maintain a resilient **security posture** through the implementation and continuous enhancement of organizational, physical and technical security measures designed to prevent, detect and respond to evolving cyber threats.
- **Protect personal data** and respect privacy rights in accordance with applicable data protection legislation.
- Promote information security **awareness** and **accountability** among all employees and third parties working on our behalf.
- **Integrate** information security considerations into business operations, projects and supplier relationships.
- **Continually improve** the effectiveness of our Information Security Management System (ISMS).

Management is committed to providing the necessary leadership, resources and support to achieve the objectives of this policy and to foster a culture in which information security is recognized as a shared responsibility throughout the organization.
